eFSAP Users: How to Disable Copilot within Microsoft Edge Settings

1. Open the Microsoft Edge Browser and use the three dots in upper right corner to access the menu and choose Settings.

2. To locate Copilot settings, you have two options - you can use Search Settings for "Copilot," or go to the Sidebar Menu on the left to get to App and Notification Settings where Copilot is listed.

Settings		Customize sidebar		
Q	Search settings	Always show sidebar	•	
	Profiles Privacy, search, and services Appearance	Personalize my top sites in customize sidebar When this is on, we'll personalize the top sites shown within customize sidebar based on your browsing history/activities		
	Idebar tart. home, and new tabs App and notification settings			
et R	Share, copy and paste Cookies and site permissions	Allow sidebar apps to show notifications	•	
 ≁	Default browser Downloads Family safety	App specific settings Exch app contain individual settings that can be set and include notifications and permissions		
At O	Languages Printers	Copilot	>	
0	System and performance Reset settings	Other apps These non-pinned apps may show notifications and automatically open		
*	Phone and other devices Accessibility	Search	>	
9	About Microsoft Edge	Games	>	
		Outlook	>	

Here you can use the slide toggles to enable/disable the app. 3.
